

Alexandria Health Department 2003 Nurse of the Year

It is with great pleasure that we announce that **Diana Shupack**, PHN, Arlandria Health Center for Women and Children, has been selected by her peers throughout the Alexandria Health Department as the “2003 Public Health Nurse of the Year”. Diana’s name and nomination have been forwarded to the Northern Region Nursing Council as our candidate for the Region’s Public Health Nurse of the Year.

Ms. Shupack joined the Alexandria Health Department in 1996 as a part-time nurse and has gradually increased her hours to the point of her current full-time position. In addition to providing excellent and competent nursing care to all of her clients at Arlandria (and usually in fluent Spanish!), Diana treats everyone with respect and love. She is well-regarded by her coworkers and regularly goes beyond the bounds of her job responsibilities, including building record room and above-desk shelves, making National Public Health Week banners, and even shoveling out our van driver during the Blizzard of '03!

The Division of Public Health Nursing is proud to have Diana as a team member and as our Public Health Nurse of the Year for 2003!
